PLACE TO STORE YOUR FURNITURE

WHITE GLOVE MOVING AND STORAGE

For years, White Glove catered to art galleries and fine furniture companies as a receiver: receiving, storing, packing and shipping luxury items all over the world. But the world has changed, moving is now called “logistics” and White Glove’s devoted customers began to demand that the company handle their moving and storage, too. Now it’s a full-service provider that designers, residential and commercial clients, art and antiques dealers and furniture showrooms depend on. The inventory, with condition report and photos, is always a hit, as is the company’s capacity to stage your furniture in its facilities so that you’ll know what it’s going to look like in your new mansion. And, yes, the movers do wear white gloves, always. 2209-A Rutland, Ste. 300, 490-1501; whiteglovetexas.com.
